- Parental Involvement and Engagement
- Departmental Leadership
- Pastoral Leadership

Current Leadership Responsibilities

My current role is Assistant Headteacher at Our Lady's R.C. High School. I will forever be passionate about pedagogical approaches that impact the classroom, my subject specialism being Computer Science and my line management of MFL allows me to demonstrate successful leadership in very different ways. Through my current responsibilities I have been afforded the opportunity to lead initiatives that ensure that all practitioners at my school can promote their love for teaching as I currently have the responsibility for whole school behaviour for learning. Furthermore, I am part of the Safeguarding team as Deputy Safeguarding Lead and responsible for the pastoral care for all pupils at our school. This responsibility extends to Parental involvement and engagement where I have revolutionised Parents Evening events in turn making significant improvements to attendance to every event. Finally, I am also responsible for Student Attendance and Punctuality which again has witnessed significant improvements under my leadership, as attendance to school is above the local average and national average, considering both rate of absence and persistent absence.
