

### W/C 29.6.2020: Learning Project - Around the World

Age Range: Y4

| Weekly Reading Tasks                                                                                                                                                                                                                                                         | Weekly Spelling Tasks                                                                                                                                                                                                                                                                                  |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Monday-</b> Share a story together, perhaps a story from another culture? Ask your child to identify any countries, cultures or food that are referenced in the story.                                                                                                    | <b>Monday-</b> Your child can learn to spell the continents of the world. Practise writing them using pencils, pens, chalk, sticks, typing, etc.                                                                                                                                                       |
| <b>Tuesday-</b> Visit <a href="#">Ducksters</a> and let your child choose a region to learn about. Ask them to identify major cities, rivers and information on its landscape.                                                                                               | <b>Tuesday-</b> Practise spelling these words: <b>sadly, completely, usually, finally, comically</b> . Can your child identify the spelling rule for adding the 'ly' suffix?                                                                                                                           |
| <b>Wednesday-</b> Can your child design a book cover for a well-known myth e.g. Romulus and Remus? Or can they write an alternative ending instead?                                                                                                                          | <b>Wednesday-</b> Can your child create their very own 'Around the World' crossword puzzle? Help them write clues and a family member can complete it.                                                                                                                                                 |
| <b>Thursday-</b> Visit <a href="#">Story Nory</a> and let your child choose a story from around the world to listen to. Can they summarise the main events by drawing a comic strip?                                                                                         | <b>Thursday- Trace it.</b> Choose 5 <a href="#">Common Exception</a> words and trace around each word. What does your child notice about the shape of each word?                                                                                                                                       |
| <b>Friday-</b> Look at this <a href="#">world flag poster</a> together. How many flags does your child recognise? Ask your child to choose one of the countries and read online about their culture, cuisine, popular sport and significant/famous people from this country. | <b>Friday-</b> Ask your child to list adjectives and place names that begin with the same letter e.g. fascinating France, sweltering Sri Lanka, exquisite England. Can they put these into a list poem?                                                                                                |
| Weekly Writing Tasks                                                                                                                                                                                                                                                         | Weekly Maths Tasks- Multiplication and Division                                                                                                                                                                                                                                                        |
| <b>Monday-</b> Visit the Literacy Shed for this wonderful resource on <a href="#">The Blackhat</a> . Or your child could design a new island for people to visit by creating a detailed map from a bird's eye view.                                                          | <b>Monday-</b> Your child can try to find real life arrays -this could be eggs in a tray, candles in a row, etc. Once found, get your child to write the calculation for that array. Can they find the fact family? (E.g. $3 \times 4 = 12$ , $4 \times 3 = 12$ , $12 \div 3 = 4$ & $12 \div 4 = 3$ ). |
| <b>Tuesday-</b> Ask your child to write a set of instructions explaining how to make an African mask. Remind them to include: equipment, headings, imperative verbs (bossy words), adverbs (e.g. carefully, slowly ) and a handy hint.                                       | <b>Tuesday-</b> Choosing a times table of choice, ask your child to write a rap/song to help them remember the multiplication facts linked to this time table. Can they include the corresponding division facts in their rap/song too?                                                                |
| <b>Wednesday-</b> Discuss a holiday that your child has been on or a place they've visited. Get them to design a postcard and write about what they did there.                                                                                                               | <b>Wednesday-</b> Get your child to make a multiplication flower for a times table of their choice like the one <a href="#">here</a> .                                                                                                                                                                 |
| <b>Thursday-</b> Get your child to listen to some <a href="#">Anasi stories</a> . Ask them to write their                                                                                                                                                                    | <b>Thursday (theme)-</b> Ask your child to think about the products that they use at                                                                                                                                                                                                                   |

own story featuring Anasi. What is she going to teach them? Encourage them to create their own book with a front and back cover and illustrations.

home and how far these have travelled. Food, clothing, toys and electrical items often carry 'Made in...' labels. Calculate distances travelled and order from those made closest to home to those made furthest away.

**Friday-** After the reading task, your child can create an information report on their chosen country and organise their paragraphs using these headings: culture, cuisine, popular sport and significant/famous people.

**Friday (theme)-** Encourage your child to explore different currencies of money used around the world. How do these compare to pounds? E.g £1= \$1.25.

### Learning Project - to be done throughout the week

The project this week aims to provide opportunities for your child to learn more about countries and cities around the world. Learning may focus on different cultures and traditions, famous landmarks, food and clothing.

- **SRE – A Journey in Love** Please sit with your child and discuss this. This is about how God loves us for all our differences and we are all unique and built in the eyes of God. <https://www.sacred-heart.bolton.sch.uk/wp-content/uploads/2020/05/Y4.pdf>
- **RE- Building Bridges**  
Read **Luke 15:3-6,7**. In a reflection situation, help the children to imagine themselves as a lost sheep. They hear Jesus calling them; they come out from a hiding place where they have gone because they know they have done wrong. Like the lost sheep, they allow themselves to be led home. The Sacrament of Reconciliation brings us back to God, who forgives us and absolves us from our sins. God's mercy and love is like the tenderness shown in the story. We can be sure God loves us. Design a 'map' for a Christian on their life's journey who may be 'lost' and wants to be found – include on it 'signposts' of advice and ways to live their lives.
- **Virtual Explorer (Geography)-** What are the continents of the world? Which continent is Manchester in? Ask your child to use Google Maps to explore Manchester city centre or a chosen part of the city. Can they create a fact file or informational tourist guide as to persuade people that Manchester is a cool place to live. You should encourage your child to consider: tourist locations, landmarks and places to eat/drink.
- **Mask Making (DT) -** Ask your child to use paper or cardboard and a range of materials around the home to design and create their own African mask. Can they find out their importance to African culture by watching this [clip](#)?
- **Dance Around the World (PE)-** Use [SafeYoutube](#) to dance along to some different cultural dances from around the world, such as the Brazilian Samba, the traditional Diwali stick dance or the Spanish Flamenco. Your child can design a cultural costume for their favourite dance and label it with suitable materials. Why not record a video to share with your school's Twitter? Encourage your child to watch the recording back and evaluate their dance. **Recommendation at least 2 hours of exercise a week.**
- **Time to Talk -** Encourage your child to discuss with their family the links they and their family have to the wider world. Find out places family members have visited on holiday, work/business links or simply countries they would like to visit in the future. Have a go at learning some simple phrases in different languages from around the world and write the phrases using the colours of the flag for that country. You could visit the Mrs Mandarin website [here](#).

## STEM Learning Opportunities #sciencefromhome

### Engineering Around the World – World's Tallest Tower

- In 2020 the new world's largest tower will be the Jeddah Tower, in Saudi Arabia. It will have 200 floors and will reach 1008 meters high.
- Use scrap paper and junk box materials to build a tower. You might like to search for photos of the 'Jeddah Tower' to help you with your design.
- What is the tallest tower you can build?

## Additional learning resources parents may wish to engage with

- [BBC Bitesize](#) - Lots of videos and learning opportunities for all subjects.
- [Classroom Secrets Learning Packs](#) - Reading, writing and maths activities for different ages.
- [Twinkl](#) - Click on the link and sign up using your email address and creating a password. Use the offer code UKTWINKLHELPS.
- [White Rose Maths](#) online maths lessons. Watch a lesson video and complete the worksheet (can be downloaded and completed digitally).
- [www.mymaths.co.uk](http://www.mymaths.co.uk) - Lots of maths games and questions to support your child.
- [Times Table Rockstars](#) and [Numbots](#). Your child can access both of these programmes with their school logins. On Times Table Rockstars, children should aim to play Soundcheck for 20 minutes daily.
- IXL online. Click here for [Year 3](#) or here for [Year 4](#). There are interactive games to play and guides for parents.
- [Mastery Mathematics Learning Packs](#). Take a look at the mastery mathematics home learning packs with a range of different activities and lessons.
- [Y3 Talk for Writing Home-school Booklets](#) and [Y4](#) are an excellent resource to support your child's speaking and listening, reading and writing skills.
- Power Maths Home Learning can be accessed with the link below <https://preview.pearsonactivelearn.com/PowerMathsYear4> children are to complete one lesson each day from Text book C and if there is a 'Practice Book Summer Home Edition' which can be used to. Here is a link for parents on how to access Power Maths and Home Learning resources <https://www.youtube.com/watch?v=ssa6TAjzgug>

The Learning Projects are based on the **National Curriculum expectations** for the key stage which your child is in. It may be that your child finds the tasks set within the Learning Project for their year group too simple. If this is the case, then we suggest that your child accesses the Learning Projects which are set for the key stage above. Equally, if the projects are too challenging, then we advise that your child accesses the projects for the key stage below.

If your child requires more of a challenge, or you believe that there are some gaps in their learning then [Century Tech](#) is a fantastic resource that is currently free for home learning. The app is designed to address gaps and misconceptions, provide challenge and enables children to retain new knowledge. It uses artificial intelligence to tailor the learning to your child's needs. Sign up [here](#).
