What do you think Safer Internet Day is all about?

What's your favourite thing to do online or using technology?

SAFER INTERNET DAY 2025

Too good to be true? Protecting yourself and others from scams online

Safer Internet Day

11th February 2025

Who can explain what a scam is?

Falling for Scams

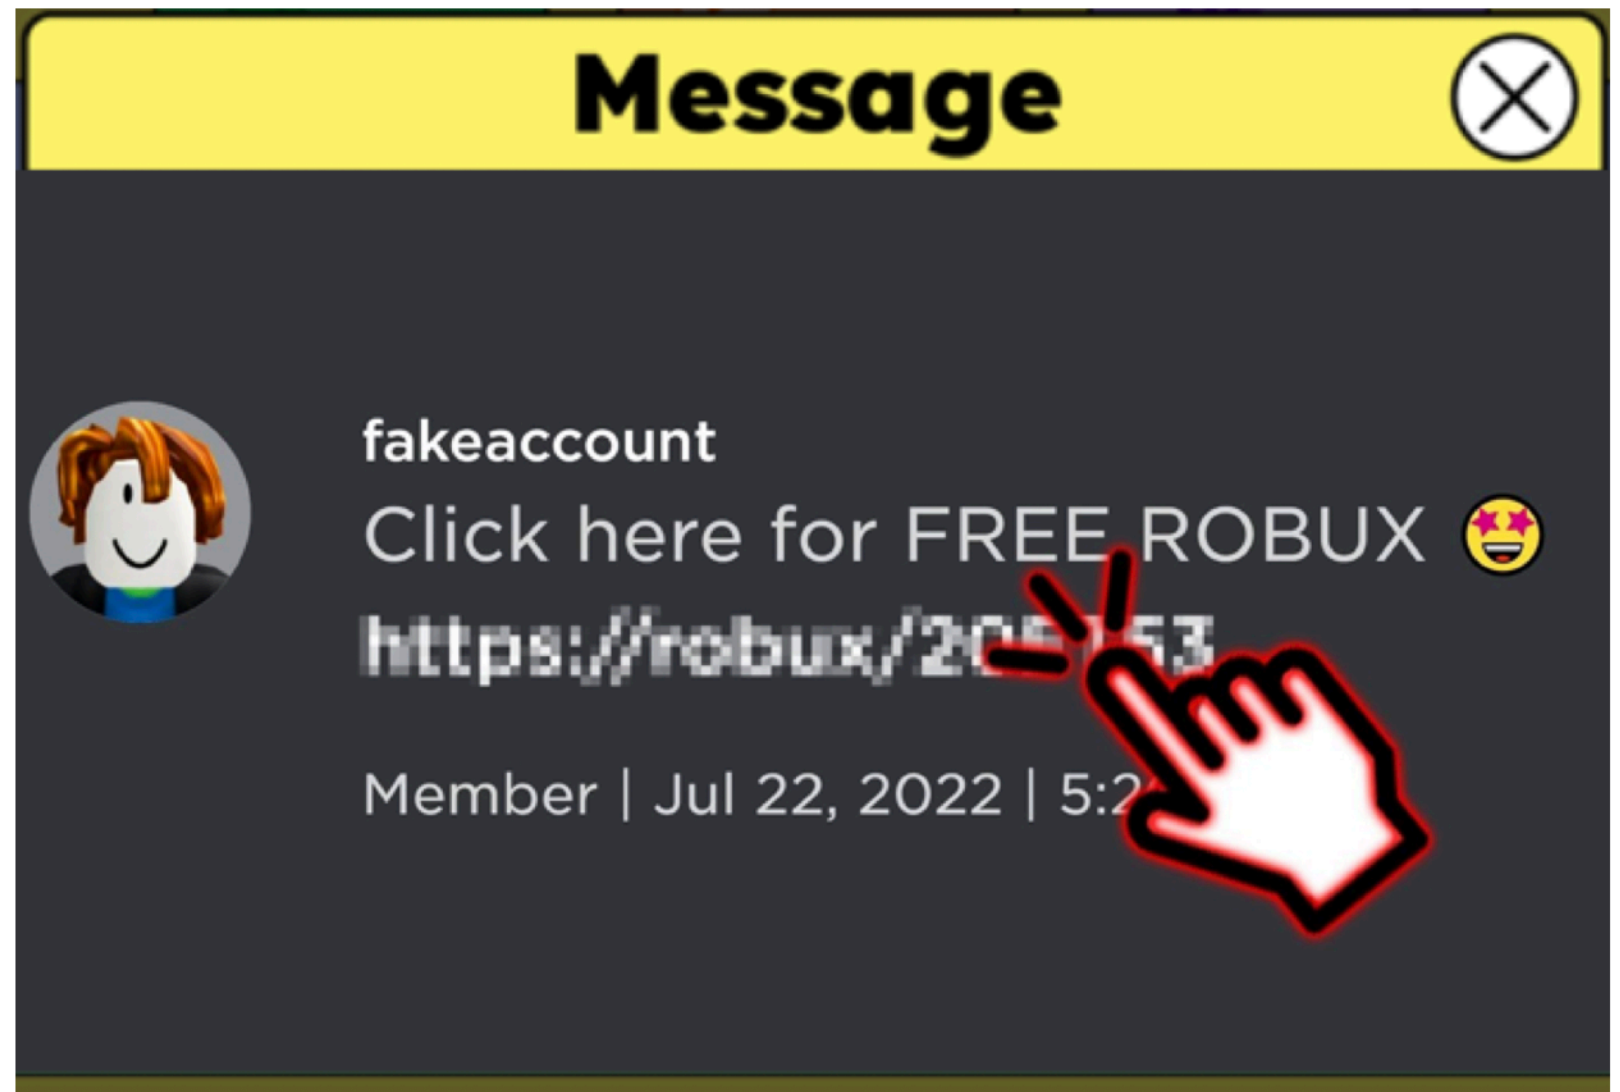

There are lots of types of scams online – perhaps you have seen some before.

Put your hand up if you have seen...

Falling for Scams

A message with
a suspicious-
looking link. 🙄

A typical scam message on Roblox might look like: "Hey, want free Robux? Just click this link and enter your username and password to verify!"

Falling for Scams

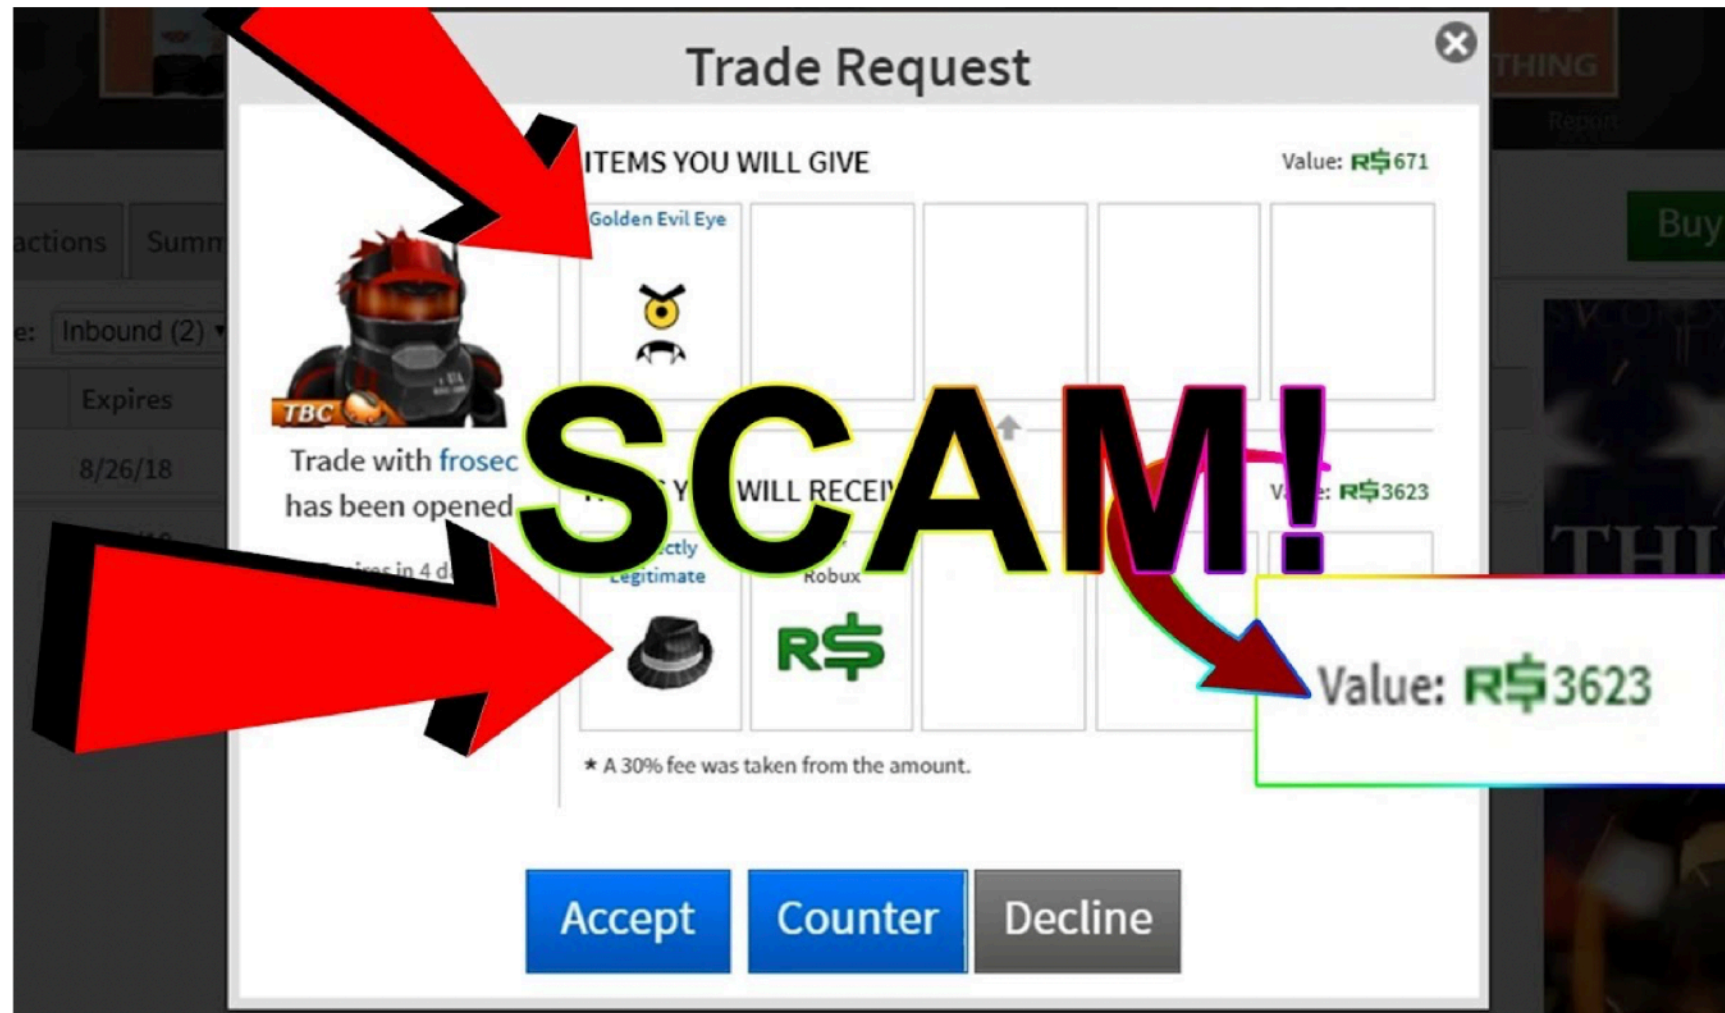

Something that seems too good to be true, like you've won a prize.

A "you have won a prize" message, especially if it comes out of the blue and asks you to provide personal information or pay a fee to claim your prize, is almost always a scam; it's a common tactic used by fraudsters to trick people.

Falling for Scams

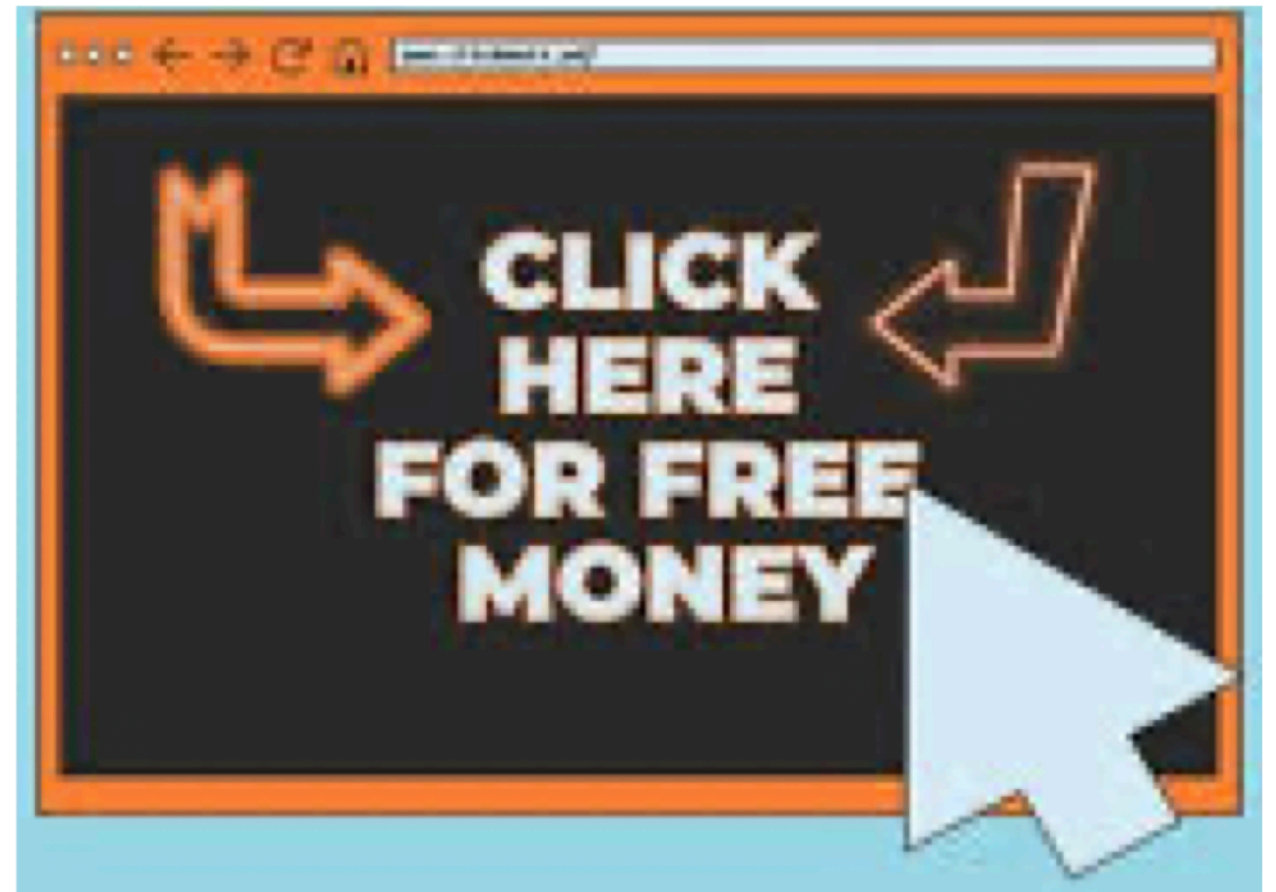

Another player in a game agreeing to trade but then taking something and not giving anything in return.

The main reason why people do this is to get rare or valuable things easily by taking advantage of others' trust. Learning the value of your items means you are less likely to **fall** for fake or unfair trades.

Falling for Scams

A video, app, advert or website that says it can show you how to get free money in your favourite game.

Offers of free money will cost you a lot. Scammers try to convince you that you are owed or entitled to, money or winnings that you did not expect to receive.

Staying Safe Online

It's important that everyone feels safe when they are using technology.

How can you stay safe even if you see a scam online?

What do you think? Has anyone got any good advice on staying safe?

Super Scam Spotter!

Let's get started on making our online world a safer place!

Let's start thinking carefully and asking questions whenever we are online.

Remember: if it looks too good to be true, it probably is!
